- Built responsive and optimized user interfaces with React.js
- Created and maintained WordPress sites for clients
- Designed and integrated REST APIs for dynamic data handling
- Improved application performance and cross-browser compatibility
- Collaborated with cross-functional teams to deliver projects on time

---

LEADERSHIP EXPERIENCE

Project Manager (Internship Program)
Pakistan Software Export Board (PSEB)

- Managed and trained a team of **25+ trainees** across multiple tech domains
- Led development of startup project **HireExpert**
- Delivered **10+ MERN Stack training batches**
- Mentored **50+ students** from beginner to job-ready level
- Conducted code reviews, technical sessions, and feedback sessions

---

PROJECTS

HireExpert (Startup Platform)
https://gethireexpert.com/

- Platform offering digital & physical services (similar to Fiverr/Upwork)
- Role: Project Manager & Full Stack Contributor
- Managed development workflow and team collaboration

Portfolio Website (React.js)
https://devshayan-seven.vercel.app/

- Designed and implemented a modern, responsive portfolio using React.js
- Focused on UI/UX design, performance, and responsiveness

Haven Bridge (MERN Stack Application)
https://github.com/Mshayan2/HavenBridge_full.git

- Full-stack property buying & selling application
- Implemented CRUD operations, user authentication, and REST API workflows
- Built using MERN stack (MongoDB, Express.js, React.js, Node.js)

Devonic Solutions Website (React.js + Frontend)
https://github.com/Mshayan2/Devonic_Solutions.git

- Developed a business website for a digital agency
- Showcased digital services including development and marketing
- Built with modern UI, responsive design, and service highlights
- Focused on improving user engagement and client conversion

Task Manager API (Backend Project)
https://github.com/Mshayan2/taski-manager-express-js.git

- Developed a **RESTful API** with Node.js and Express.js
- Built endpoints for task creation, update, deletion, and retrieval
- Integrated MongoDB for scalable data management
- Structured backend with controllers, routes, and middleware
- Tested API endpoints using Postman

TRAINING & MENTORSHIP

- Delivered **10+ MERN Stack training batches**
- Designed structured curriculum with practical assignments
- Mentored **50+ students** from fundamentals to professional level
