Government High School Sheikh Jana

About Me

Detail-oriented and self-driven Full Stack Developer with hands-on experience in developing scalable web applications using modern technologies like React JS, Node.js, and MongoDB. Adept at both front-end and back-end development, API integration, and database management. Passionate about building efficient systems, solving real-world problems, and contributing to collaborative tech environments.

Professional Experience

Sat Software House & Institute | Full Stack Developer & Instructor

2024 – Present

- Designed and developed responsive web applications using React and Node.js
- Built RESTful APIs and integrated front-end with dynamic back-end services
- Delivered training sessions on front-end frameworks and backend logic
- Deployed projects using GitHub and managed version control
- Mentored students and helped them complete hands-on projects

Freelance Projects | Full Stack Developer

2022–2024

- Developed e-commerce platforms with cart functionality, product pages, and payment integration
- Implemented SEO-friendly structures for improved search engine visibility
- Used MongoDB for dynamic content management and Express for server-side routing

Achievements

- Increased project deployment efficiency by 40% through automation
- Built multiple responsive websites used by real-world clients
- Received NAVTTC recognition for top project performance
